

English Language Diploma

Course Name: General English Language

Course Code: ENG001

Module No.: 07

Module Main Objectives

At the end of this module, the students will be able to...

- Use Can and Can't to talk about ability.
- Learn vocabulary related to hobbies & skills and diploma-specific contexts.
- Practice Listening and Speaking skills.
- Develop Reading and Writing skills.

Grammar:

Can / Can't

Can (Affirmative)

- **Can** is a modal verb.
- **Can** is used to express **ability** or to say that something is **possible**.
- **Can** is the same for all subjects. We don't add an 'S' in the third person (like other verbs).
- The verb that comes after **Can** is in the infinitive.

Examples:

I **can** speak Spanish.

He **can** swim well.

We **can** see our neighbour in the garden.

They **can** play the guitar.

Can+ not (Negative)

- To form the negative we add "**not**" after **can** to form one word: **cannot**.
- We can also contract the negative to form **can't**. (can't = cannot).

Examples:

I **cannot** play football.

We **can't** go to the cinema tonight.

She **cannot** speak French very well.

He **can't** drive a car.

Can (Question)

- To form the question we change the position of the subject and the auxiliary verb.
- The main verb is still in the infinitive.

Examples

Where **can** I buy an ice-cream?

Can I go to the party, please?

Can you speak Japanese?

What **can** we do on Saturday?

Remember that you can use short answers:

Can I sit here please? **Yes, you can.**

Can you speak Chinese? **No, I can't.**

Practice 1

A) Choose the correct form:

1. Ali can _____ the car. a) driving b) drives c) drive
2. They _____ go to the mall because it is raining. a) can b) can't c) not
3. I _____ speak French. a) don't can b) not can c) can't
4. Sara can _____ spicy food. a) ate b) eats c) eat

B) Reorder to make questions:

1. read / can / English books / she ?

.....

2. you/ close / the window / can?

.....

New vocabulary

Vocabulary 1 (Hobbies)

- Climbing
- Painting
- Cooking

Vocabulary 1 (Hobbies)

- Reading
- Walking
- Shopping

Vocabulary 2:

Data

Information that a computer uses to learn. •

Example: “AI needs data to work.”

Training

The process of teaching an AI using data. •

Example: “The model is training on thousands of examples.”

Model

A system or program that learns from data and makes decisions. •

Example: “The AI model can recognize images.”

Listening:

- 1.Listen carefully to the audio.**
- 2.You will answer some questions after listening.**

A: So, are you a good cook?

B: Not really, but I can cook basic stuff.

A: Yeah? What can you cook?

B: I can make pasta dishes and some French cuisine. What about you?

A: I can't cook anything. I can only make an omelette.

B: Well, that's not too bad. Can you make pancakes?

A: No, I can't even make that.

Listening comprehension:

1. What can speaker B cook?

- a) Nothing
- b) Pasta dishes and some French cuisine
- c) Pancakes
- d) Only rice

2. What can speaker A make?

- a) Pasta
- b) Pancakes
- c) An omelette
- d) French cuisine

Reading 1:

Different Hobbies People Enjoy

People enjoy many different hobbies in their free time. Some people like climbing because it is exciting and gives them a chance to enjoy nature and mountains. Others prefer painting, as it helps them to be creative and express their feelings with colors.

At home, many people love cooking. They try new recipes and prepare delicious meals for their family. Another popular hobby is reading. Reading books, magazines, or online articles can be both relaxing and educational.

For exercise, some people enjoy walking in the park or around the city. Walking is simple, healthy, and good for the mind. Finally, many people like shopping. They visit stores or malls to buy clothes, gifts, or food, and they often enjoy spending time with friends while shopping.

Reading comprehension 1:

1. Which hobby is exciting and give people a chance to enjoy nature?

a) Reading b) Shopping c) Climbing

2. Which hobby helps people to be creative with colours ?

a) Painting b) Walking c) Reading

3. Which hobby do people enjoy at home when they prepare meals?

a) Cooking b) Walking c) Shopping

Reading 2:

How Artificial Intelligence Works

Artificial Intelligence (AI) is changing the world. AI systems use data to • learn new things. This data can be pictures, text, or numbers. An AI system uses a model to understand the data. The model is like the brain of the AI. During training, the model studies a lot of data to learn patterns. After training, the AI can make a prediction. For example, it can look at a picture and say what it is. It does this by following an algorithm, which is a set of rules or steps. AI is used in many areas like healthcare, education, and business.

Reading comprehension 2:

1. What does AI use to learn? •

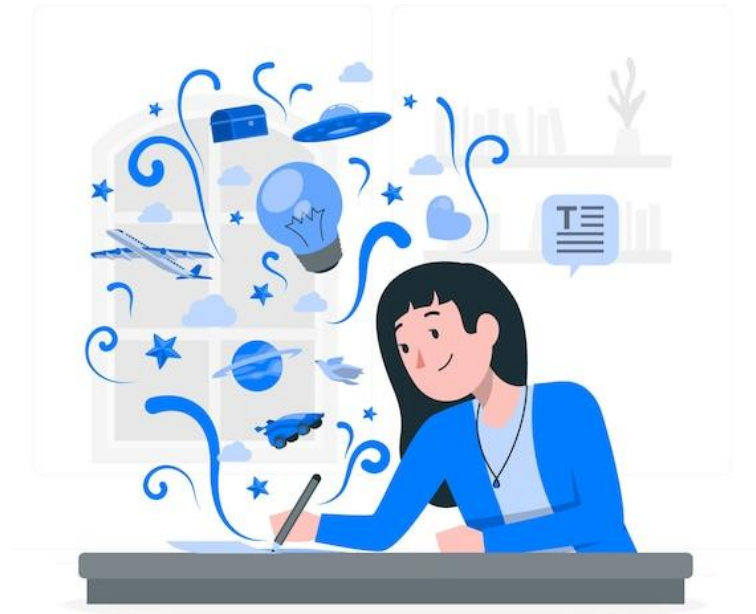

- A. Games •
- B. Data
- C. Music
- D. People

2. What is a “model” in AI?

- A person
- B. A machine
- C. The brain of the AI
- D. A picture

3. What happens during training?

- A. The AI sleeps
- B. The AI learns from data
- C. The AI stops working
- D. The AI deletes data

Conversation Practice:

Aisha: Hi Sara! What do you usually do in your free time?

Sara: I have many hobbies. I enjoy reading novels and sometimes painting. What about you?

Aisha: I like climbing when I travel to the mountains. At home, I enjoy cooking new dishes for my family.

Sara: That sounds fun! I also like walking in the park. And, of course, I love shopping with my friends on weekends.

Aisha: By the way, yesterday I saw an advertising campaign for a new product—a smartwatch. The price was very good, so I decided to buy it.

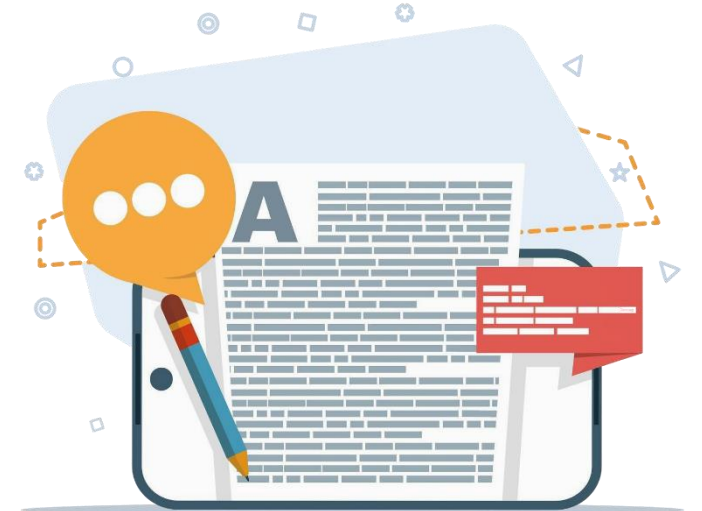

Sara: Wow! Advertising really works. They make the product look interesting, and the price convinces people to try it.

Writing practice:

Write 4 sentences about your ability.

Examples:

- I can speak English.
- I cannot ride a horse.

Key answers:

Practice 1

A) 1- (c). 2- (b). 3- (c). 4- (c).

B) 1- Can she read English books ? 2- Can you close the window?

Practice 2

1- (b). 2- (c). 3- (b).

Listening comprehension:

1- (b). 2- (c).

Reading comprehension 1:

1- (c). 2- (a). 3- (a).

Unit Summary:

This module covered:

- Grammar: Can / Can't
- Vocabulary: Hobbies + Diploma-specific words
- Skills practiced: Listening, Speaking, Reading, Writing.

Generative Artificial Intelligence Diploma

Course Name: Applied English

Course Code: ENG 201

Module No.: 06

Module Main Objectives

At the end of this module, students will be able to:

- Give clear instructions in the correct sequence
- Describe simple technical processes step by step
- Use sequencing words accurately
- Use imperatives and passive voice appropriately
- Explain procedures clearly in spoken and written English

New vocabulary

Sequencing Language

- first
- next
- then
- after that
- finally

Process Language

- process
- step
- instruction
- procedure
- method

Action Verbs

- install
- activate
- connect
- submit
- complete

Vocabulary in Context

- **First**, install the application.
- **Next**, activate the system.
- Each **step** must be completed correctly.
- Follow the **instructions** carefully.
- The process is **completed** successfully.

Vocabulary Quiz 1

_____, install the application before restarting the system. •

- A. Finally
- B. First
- C. After that
- D. Then

Enter your password. _____, click the login button. •

- A. Finally
- B. First
- C. Next
- D. Method

Follow each _____ carefully to avoid errors.

- A. step
- B. finally
- C. install
- D. after that

The password reset _____ includes three stages.

- A. submit
- B. procedure
- C. connect
- D. first

What does "Method" mean?

- A. A result
- B. A way of doing something
- C. A problem
- D. A beginning

What does "Activate" mean?

- A. Stop something
- B. Make something start working
- C. Delete something
- D. Hide something

Vocabulary Quiz 2

Please _____ the software before using it.

- A. process
- B. install
- C. finally
- D. step

_____ the device to the network using a cable.

- A. Complete
- B. After that
- C. Connect
- D. Method

What does "First" mean?

- A. At the end
- B. At the beginning
- C. In the middle
- D. Never

What does "Process" mean?

- A. One action
- B. A series of actions
- C. A mistake
- D. A machine

What does "Instruction" mean?

- A. A problem
- B. Something that tells you what to do
- C. A machine
- D. A result

Reading Passage 1

Following Instructions

Installing a software application usually involves several clear steps. First, users download the application from an official website. Next, they open the installation file and follow the on-screen instructions. During this step, users may need to accept terms and choose installation settings.

After the installation is complete, users activate the software using an account or license key. Finally, the system checks the configuration to make sure the application works correctly. If users follow each step carefully, the process is usually fast and successful.

Clear instructions help reduce errors and save time. When instructions are simple and well organized, users can complete tasks without technical support.

Reading Passage 1 — MCQs

- What is the first step in the installation process?
 - A) Activating the software
 - B) Downloading the application
 - C) Checking the configuration
 - D) Contacting support
- Why are clear instructions important?
 - A) They increase system cost
 - B) They reduce errors
 - C) They remove steps
 - D) They slow the process
- What happens after installation?
 - A) The file is deleted
 - B) The software is activated
 - C) The system shuts down
 - D) The account is removed

Reading Passage 2

Describing a Process

Submitting an online assignment requires following a simple procedure. First, students log into the learning platform using their username and password. Next, they select the correct course and open the assignment page.

After that, students upload the required file and check that it is complete. Finally, they submit the assignment and wait for confirmation. If any step is skipped, the submission may fail.

Understanding the process helps students avoid mistakes and submit work successfully.

Reading Passage 2 — MCQs

- What must students do first?
 - A) Upload the file
 - B) Log into the platform
 - C) Submit the assignment
 - D) Check confirmation
- What happens if a step is skipped?
 - A) The grade improves
 - B) The submission may fail
 - C) The file is saved automatically
 - D) The platform closes
- What is the final step?
 - A) Uploading the file
 - B) Selecting the course
 - C) Submitting the assignment
 - D) Opening the page

GRAMMAR

Imperatives & Passive Voice

- **Imperatives (for instructions)**
 - Download the file.
 - Open the application.
 - Follow the instructions.
- **Passive Voice (for processes)**
 - The file **is uploaded**.
 - The system **is activated**.
 - The task **is completed**.

Grammar MCQs

- Choose the correct instruction.
 - A) You download the file.
 - B) Download the file.
 - C) Downloading the file.
 - D) The file downloads.
- Choose the correct passive sentence.
 - A) The user uploads the file.
 - B) The file is uploaded.
 - C) The file upload.
 - D) Upload the file.
- Choose the correct sentence.
 - A) First, the system activate.
 - B) First, activate the system.
 - C) First, system is activate.
 - D) First, activating the system.

Listening Passage 1

Following Instructions

To install the application correctly, follow these steps carefully. •
First, open the official website and download the installation file. Make sure you choose the correct version for your device. Next, open the file and follow the on-screen instructions. During installation, you may be asked to accept the terms and select basic settings.

After the installation is complete, open the application and log in •
using your account details. If you do not have an account, create one before continuing. Finally, restart the system to make sure all changes are applied correctly. If each step is followed in order, the application will work without problems.

Listening 1 — MCQs

- What should users do first?
 - A) Restart the system
 - B) Download the installation file
 - C) Log into the application
 - D) Accept the terms
- Why should users restart the system?
 - A) To delete the file
 - B) To apply changes correctly
 - C) To update the website
 - D) To create an account
- What happens during installation?
 - A) Users submit assignments
 - B) Users accept terms and settings
 - C) Users contact support
 - D) Users remove files

Listening Passage 2

Describing a Process

To submit an assignment successfully, students must follow the correct procedure.

First, log into the learning platform using your username and password. Next, open the correct course page and locate the assignment section. After that, upload the required file and check that it is complete and readable.

Once the file is uploaded, click the submit button and wait for confirmation. A message will appear on the screen to show that the submission was successful. If the confirmation message does not appear, repeat the process carefully. Following each step in order helps avoid errors and ensures the task is completed correctly.

Listening 2 — MCQs

- What should students do after uploading the file?
 - A) Log out immediately
 - B) Click the submit button
 - C) Restart the system
 - D) Contact the instructor

Answer: B

- What shows that the submission is successful?
 - A) A warning
 - B) A confirmation message
 - C) An email
 - D) A grade

Answer: B

- Why is it important to follow each step in order?
 - A) To improve writing
 - B) To avoid errors
 - C) To save files
 - D) To reduce grades

Answer: B

Practice – SPEAKING

- **Speaking Activity 1 — Explaining a Process**
- Students explain how to:
- install an app
- submit an assignment
- activate a feature
- Sentence starters:
- “First, you...”
- “Next, the system...”
- “Finally, the task...”

Writing Task

- Write **8–10 sentences** explaining **how to complete a task** (e.g., installing an app, submitting work).
- Include:
 - at least **4 sequencing words**
 - **imperatives or passive voice**
 - clear steps in order

Answer key:

- Reading Passage 1
B, B, B
- Reading Passage 2
B, B, C
- Grammar (Imperatives & Passive Voice)
B, B, B
- Listening Passage 1
B, B, B
- Listening Passage 2
B, B, B

Unit Summary:

In this module, students learned how to give instructions and describe processes clearly. They practiced sequencing language, imperatives, and passive voice to explain procedures step by step. These skills are essential for communicating technical tasks in academic and professional environments.
